

## RATING ACTION COMMENTARY

# Fitch Assigns Asia Asset Finance a First-Time Rating of 'A+(lka)'; Outlook Stable

Wed 07 Feb, 2024 - 5:48 AM ET

Fitch Ratings - Colombo/Mumbai - 07 Feb 2024: Fitch Ratings has assigned Sri Lanka-based Asia Asset Finance PLC a first-time National Long-Term Rating of 'A+(lka)' with a Stable outlook.

Asia Asset Finance is a 72.9%-owned subsidiary of India-based Muthoot Finance Ltd (MFL, BB/Stable). Its core business is in gold-backed lending, similar to its parent. Asia Asset Finance has a small market share of 1.6% of total finance and leasing company (FLC) industry assets.

## KEY RATING DRIVERS

**Shareholder Support Drives Rating:** Asia Asset Finance's rating reflects our expectation that MFL will provide extraordinary support to its subsidiary if required. We believe MFL has the financial ability and incentive to provide support, given its majority shareholding, record of capital infusions and strategic and operational alignment in its subsidiary's core product - gold-backed loans. This is counterbalanced by Asia Asset Finance's small size and contribution to MFL, limited brand sharing and different operating jurisdiction.

**Limited Role and Contribution:** Asia Asset Finance's rating is constrained by our view of its modest role and contribution within MFL group. This is based on its small size relative to its major shareholder, separate geographical market and regulatory framework, and performance that has been affected by Sri Lanka's difficult operating conditions. We believe Asia Asset Finance plays a less significant role in MFL's franchise relative to the

We use cookies to deliver our online services, to understand how they are used and for advertising purposes. Details of the cookies we use and instructions on how to disable them are set out in our Privacy Policy.

**Strategic Integration:** Asia Asset Finance's business model aligns with MFL's core product of gold-backed loans, following its transition from vehicle financing and unsecured loans. MFL has a clear influence on Asia Asset Finance's business strategy and maintains oversight of execution at the board level. The shareholder also appoints three non-executive directors on Asia Asset Finance's eight-member board and has seconded an employee to head its gold-loan internal audit team. Nonetheless, some differences remain due to the entities' separate jurisdictions and local market practices.

**Adequate Ordinary Capital Support:** MFL has provided adequate and timely capital support to Asia Asset Finance since it acquired the company in 2014. It infused around LKR400 million in 2019 to support the subsidiary's business growth. A further LKR413 million was infused in 2021 to meet the increased minimum regulatory capital requirement of LKR2.5 billion for Sri Lankan FLCs, ahead of the stipulated compliance deadline.

**Weak Standalone Credit Profile:** We consider Asia Asset Finance's intrinsic credit strength to be significantly weaker than its support-driven rating. This stems from its modest domestic franchise, evolving risk practices, weak execution record and high debt/tangible equity ratio of 7.1x as at end-September 2023. The company's delinquency ratio also exceeds the sector average, mainly due to significantly higher non-performing loans in its legacy non-gold loan book.

**Stabilising Economic Outlook:** We expect the operating environment for Sri Lankan FLCs to continue to stabilise following the inflation and interest rate shocks over the past two years. Easing inflation and interest rate pressures should provide steadier conditions for FLC sector performance. Some headwinds linger, as higher taxes will continue to weigh on household finances in 2024. Investor confidence will also take time to recover. Nonetheless, we expect the economic activity to improve in FY25 as GDP growth recovers.

**Modest Franchise, Gold-Lending Niche:** Asia Asset Finance is a small FLC with around 1.5% market share of industry loans and deposits. It has a niche in gold-backed lending and accounts for around 7% of sector gold loans. Asia Asset Finance derives some benefits from MFL's domain knowledge in gold-backed lending. However, differences in regulatory frameworks and lending practices between Sri Lanka and India are likely to result in varied portfolio performance relative to MFL's performance in India.

annualised gold-loan growth rate of 56% from FY18 to FY23. Asia Asset Finance plans to diversify into small-ticket mortgages and vehicle loans to ease its concentration risk, but this is subject to execution risk.

**Significant Asset-Quality Risks:** We expect Asia Asset Finance's asset quality metrics to remain weak in the near term, as legacy delinquent loans take time to resolve. Some borrowers may also face residual financial pressure after the difficult economic conditions over the past few years. The company's gold-backed portfolio should mitigate credit losses, due to the typically healthy recoverability of gold collateral, but this may be tested against its generous risk parameters and still challenging operating conditions.

Asia Asset Finance's 90-day non-performing loan ratio of 24.7% stood above the industry's 19.9% at end-September 2023, driven by its legacy portfolio.

## **RATING SENSITIVITIES**

### **Factors that Could, Individually or Collectively, Lead to Negative Rating Action/Downgrade**

Asia Asset Finance's rating is sensitive to changes in MFL's credit profile as well as our opinion around MFL's ability and propensity to extend timely extraordinary support. Developments that could lead to negative rating action include:

- Meaningful reduction in the parent's ownership, control or influence that could weaken its propensity to support the subsidiary
- Notable decline in capital buffers, indicating reduced timeliness in financial support to back growth
- Weakening alignment of Asia Asset Finance's gold loan practices with its parent's policies, denoting a lower level of integration
- Sustained underperformance that increases the management and reputational burden for MFL
- Insufficient or delayed liquidity support from MFL that hinders Asia Asset Finance's ability

would imply a multi-notch downgrade.

**Factors that Could, Individually or Collectively, Lead to Positive Rating Action/Upgrade**

- A significantly greater strategic role for Asia Asset Finance within MFL group
- Closer integration with MFL across broader functional areas
- Greater sharing of the Muthoot brand name besides the gold-loan product

However, we view these developments as less likely in the near-term in light of Asia Asset Finance's different operating jurisdiction and small size relative to MFL.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. Fitch Ratings makes routine, commonly-accepted adjustments to reported financial data in accordance with the relevant criteria and/or industry standards to provide financial metric consistency for entities in the same sector or asset class.

The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAA' to 'D'. Fitch also provides information on best-case rating upgrade scenarios and worst-case rating downgrade scenarios (defined as the 99th percentile of

The information in this report is provided “as is” without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.
